THE following is credited to an Indiana man. He planted a grain of corn in each hill of potatoes. I have used it in my own family for many years; in fact, always have a bottle in the medicine chest ready for use." 6 17-1m

On Sabbath afternoon, a distressing accident occurred, the result of which was the death of a Martin's Ferry lad, at the hands of a companion who was carelessly handling a revolver. A few days previous to this a party of boys had gone a few miles up the river from Martin's Ferry, and opened a camp, and on Saturday, Oscar Martin, aged 18, son of Dr. T. C. Martin, joined them. Young Oscar was snapping it at the other boys. Edgar Cook, aged 15, said "I can't dodge that one," when the revolver went off, the ball entering Edgar's head near the eye, and passing completely through the brain. He fell to the ground a corpse. Young Martin was almost crazed by his careless deed, and wanted to reload the revolver and kill himself, but it was taken from him by the brothers of the dead boy. Martin was arrested, and the Coroner summoned, but as it was shown to be an accident, no inquest was held, and Martin was released from custody. It is only a matter of time, from the criminally careless habit of pointing and snapping fire arms.
